

DeKalb County Department of Watershed Management

Toilet Retrofit Rebate Program FAQ's:

Q. Why is DeKalb County offering toilet rebates?

A. DeKalb County is offering this program to their customers as an incentive to replace older, inefficient toilets. This program continues to be one of the components of the Department's long term water conservation efforts. Residents can do their part to reduce water usage by installing ultra low-flush toilets (ULFT) and high efficiency toilets (HET).

Q. Who qualifies for the program?

A. Owners of individually metered residential dwellings whose homes were built prior to 1993 can qualify. These dwellings must have an active DeKalb County water account number. This program will assist customers in replacing their old toilets with efficient water-conserving toilets to conserve water and money. To ensure you receive your rebate, please submit original receipts within 60 days of purchase and complete the Toilet Retrofit Rebate application in its entirety.

Q. How do I get an application?

A. Customers can download and print an application from the webpage at www.dekalbwatershed.com or by calling 770-414-2360 to receive an application by mail.

Q. Are homebuilders eligible?

A. No, only homes built before 1993 are eligible.

Q. Can multifamily residents apply?

A. Currently there is not a rebate program for multi-family dwellings.

Q. I live in a condo/townhome. I do not pay a water bill to DeKalb County Treasury and Accounting, I pay my condo association. Can I participate in the rebate program?

A. Unfortunately, master metered condo and townhome associations are considered commercial accounts by DeKalb County. Right now the program is only open to individual residential accounts.

Q. I pump my water from a well, am I eligible?

A. No. The water systems are offering this program to their customers to reduce water demands on the system. Because households on wells do not receive a water bill from DeKalb County, the household is not eligible for a rebate.

Q. Can I email my application to you?

A. No. We must have an original signed application and the original toilet purchase receipt.

Q. Can I submit copies of my receipt(s)?

A. No. We must have the original receipt(s). POS (Point of Sale) Journals, faxed or photo copies and any receipts having the words duplicate, reprint or receipt image are not accepted.

Q. Can I receive a rebate for more than one toilet that I purchase?

A. As long as the toilets purchased are approved toilets for the program, you can receive up to three (3) toilet rebates per household. If you have already participated in an existing program, you will not be eligible for any rebates.

Q. May I apply for each of my toilet rebates separately?

A. Yes. If you decide to purchase one toilet now and the other toilets at a later date and funding is still available, you may apply for the remaining toilets. All applications and receipts submitted must be within 60 days of the purchase date.

Q. Why were the toilets on the recommended \$50.00 rebate list chosen?

A. The toilets on the \$50.00 rebate list (1.6 gallons per flush or less) were chosen because they received a minimum performance standard of 350 grams per flush or higher on the national Maximum Performance Testing. The Metropolitan North Georgia Water Planning District water providers wanted to provide a guide that would assist customers in placing quality products in their homes. [Click here](#) for a list of these toilets.

Q. Why were only WaterSense toilets chosen for the \$100.00 rebate toilet list?

A. WaterSense toilets were chosen for the \$100.00 rebate list (1.28 gallons per flush) because WaterSense is the U.S. Environmental Protection Agency's new labeling program for water efficiency. The WaterSense labeled toilets only use an average of 1.28 gallons of water per flush and have passed rigorous testing standards. [Click here](#) for a list of these eligible toilets.

Q. Is there anything else I need to buy with the toilet?

A. It may be possible that a new wax ring or additional bolts may be needed when purchasing the toilet. Please work with your retailer or licensed plumber to ensure you have all the equipment you need to have a working toilet.

Q. How long do I have to apply for my rebate?

A. If you meet all the requirements, you may apply for a rebate for up to three (3) eligible toilets as long as they are submitted within 60 days of the purchase date.

Q. How long will it take after I submit my application to receive my rebate?

A. Depending on the number of applications being processed, the completeness of your application, and if you meet all qualifications, you should receive a rebate check within 60 days from the date of receipt. If you still have not received your rebate within that timeframe, please call 770.414.2360 to inquire about your rebate.

Q. After the allocated funding for toilets for this year is depleted, will you maintain a waiting list for the following year?

A. If funding is not available, applications will be held on file. When funding becomes available, applications will be processed in the order they were received.

Q. What stores participate in the program?

A. Any retailer that sells the approved 1.6 gallons per flush (gpf) toilets or 1.28 (gpf) WaterSense labeled toilets can participate in the program.

Q. Can I purchase my toilet(s) online?

A. You may purchase your toilet(s) online and still receive a rebate. However, we will need the on-line receipt as well as the actual toilet(s) purchase receipt shipped in the package you receive your toilet(s).

Q. Can I purchase my toilet(s) through a plumber/handyman?

A. Yes. Make sure the receipt from the plumber to you, shows the date of purchase, toilet manufacturer, make, model number, and payment in full. Send the **original** work order along with your completed application. Please note, DWM will not accept hand or typewritten receipts that do not possess a company logo or letterhead. If your plumber/handyman is unable to produce an acceptable receipt please have them also complete the *DeKalb County Low Flow Toilet Sale Certification Form*.

Q. Will the rebate cover the entire cost of the toilet?

A. No, the rebate will have a value of up to \$50.00 for an ultra-low flush toilet (ULFT) and up to \$100 for a high efficiency toilet (HET).

Q. Who pays for installation?

A. Customers are responsible for the installation.

Q. What is the warranty on the toilet?

A. Any warranty or defects will be the responsibility of the manufacturer and/or the retailer. DeKalb County Department of Watershed Management will assume no responsibility for defects or performance problems.

Q. What should customers do with their old toilet(s)?

A. Customers should place their old toilet(s) at the curb with a copy of their toilet rebate application or sales receipt in the tank. Notify DeKalb County's Sanitation division at 404-294-2900 and your toilet will be picked up at no charge within 1-5 business days.

Q. The application states that a site visit may be conducted to verify toilet replacement, what does this mean?

A. In order to ensure that toilets receiving rebates have been installed, DeKalb County reserves the right to an on-site inspection.

Q. How much water is saved by changing my toilet(s)?

A. The amount of water savings depends on what type of toilet(s) you are replacing, the number of persons in the household, and how often you use the fixture. Typical pre-1980 toilets use 8.0 to 5.0 gallons per flush (gpf); installing a more efficient toilet will save between 6.72 to 3.4 gpf. Typical homes built between 1981 and 1993 use 4.5 to 3.5 gpf. If a family of 3 replaces a 3.5 gpf toilet with a 1.28 gpf toilet and each person uses the toilet 5 times a day, this family could save about 33 gallons a day or 990 gallons a month.

Note: DeKalb County reserves the right to modify this program at any time.
